Lebanese International University - LIU

09/2019 - 06/2024

Mount Lebanon

#### Courses

- Data Structures & Algorithms
- Object Oriented Programming
- Advanced Web Development
- IMS Database Management
- Robotics

### BT Information Technology IT

Technical & Language College TLC

09/2016 - 03/2019

Jdeideh

#### Courses

- Computer Hardware Troubleshooting
- Computer Assembly
- Basic Level Networking
- Java
- Algorithms
- Business Law

## WORK EXPERIENCE

### Life Sculptor

Front-End Developer

03/2024 - 05/2024

Remote

#### Achievements/Tasks

- In this volunteering job, I stepped out of my comfort zone and dabbled in some React. Everyone had a task at hand, mine mainly was several parts of the Front-End. It was a pleasant experience working with the team!

### IT Manager

Fahed Supervalue

2023 - 2024

Zalqa

#### Achievements/Tasks

- Take care of the system database.
- Ensure safety and provide maintenance for hardware across the company.
- Making daily necessary commits through Oracle and other management programs.
- Making sure that the fingerprint system for employees has no clocking in/out issues that will affect any of the worker's paycheck.
- Communication skill from talking with other companies personnel.

## SKILLS

Angular

Typescript

SCSS

TailwindCSS

SQL

PHP

MongoDB

MEAN Stack

Node JS

C

C++

Git

Java

NoSQL

Netlify

Figma

## PERSONAL PROJECTS

### Taskify

- Taskify is a webapp I made as a little project, it helps manage projects and improve productivity. It is optimized for both, Web and Mobile with a very user-friendly and responsive design!
- For this project, I used MongoDB for the database, Node & Express for the back-end and Angular for the front-end.
- Bcrypt was utilized to encrypt user passwords in the database for ultimate security, and jwt for establishing user session and maintaining it.
- Socket.io was vital for making sessions and dynamically project changes onto the page without the need to refresh.

### Client Portfolio

- Working on this personal portfolio, I focused mainly on the web page performance and loading time along with it being very mobile friendly, since most people would be viewing such websites on mobile first. There are animations ranging from page scroll animation and manual scrolling in some parts of the website where it would show differently on mobile.

## CERTIFICATES

Cisco Certified Network Associate Routing and Switching (CCNA) (07/2021)

Cisco Certified Network Associate Cyber Ops (CCNA) (06/2023)
